

Q4 2025 (October 2025 – December 2025) Public Vacancy Reporting

Vacancy Rate Target – 2%

The overall Vacancy Rate is calculated using the total number of Rentable Vacant Units divided by the total number of Units (excluding Inactive Units and Revitalization Units).

Rentable Vacant Units include units currently undergoing routine maintenance after tenants have moved out and all units that have been repaired and are ready to be offered for rent or are on offer.

Inactive Units are units that have been demolished as part of revitalization projects or units which have been sold. Revitalization Units are units that are currently under construction, are being held for demolition or are on hold for relocating tenants as part of revitalization projects.

As of June 2022, vacancy rates for Seniors Housing Unit will be posted on the Toronto Seniors Housing Corporation (TSHC) website.
